

To all Cushman Street Businesses:

July 22nd, 2015

Prior to construction, it was our goal to keep one Northbound lane open at all times. Deep trenches, unstable soils and unexpected extra work have deterred us from safely doing so. In an attempt to be accommodating to all those affected by the project, Exclusive Paving and the City of Fairbanks propose a different plan. Our proposed plan will keep the cross streets open as much as possible and Cushman will remain closed with a permanent detour. The detour, as shown on map below, will route traffic around Cushman on Noble, to First, to Barnette then to Airport. Special business signs have already been made to provide clear access to affected businesses. Pedestrian access will be maintained as previously planned.
